

QTR Series

Quiet performance and traditional styled grilles that blend with any décor.

For the bathroom that's not used everyday, you may not be as concerned about energy efficiency. Broan QTR fans and fan-lights are still among the quietest products in their category and the lighted models feature soft incandescent lighting.

- Permanently lubricated motor engineered for continuous operation
- Rugged steel housing features mounting ears plus adjustable hanger bars
- 4" round duct connector
- Sturdy four-point mounting directly to joist
- Includes unique spacers (patent pending) for mounting to engineered "I" joists
- UL listed for use over bathtubs and showers when connected to a GFCI protected branch circuit
- Non-lighted models are available in project packs for contractor convenience
- Suitable for 2" x 8" constructions
- Available in lighted and non-lighted models
- Lighted models feature bright 100 watt lighting and a 4 watt night-light (bulbs not included)
- Power Rating: 120/60

Dimensions shown are in inches.
