

CHANGE THE WAY YOU HEAT

NUHEAT, THE PREMIER MANUFACTURER OF EASY-TO-INSTALL ELECTRIC FLOOR HEATING SYSTEMS, IS PROUD TO INTRODUCE THE COMPLETELY REDESIGNED NUHEAT CABLE FLOOR HEATING SOLUTION.

Offering the ultimate in installation flexibility, Nuheat Cable allows for on-site adjustments to heating coverage, coupled with newly redesigned cable guides and a low-profile cold-lead, adding heated floors to your renovation or new construction project has never been easier.

To find a distributor near you and to learn more about how you can change the way you heat, visit www.nuheat.com

FAST FACTS

- Heats tile, stone and laminate/engineered wood floors
- Zero EMF (electromagnetic field) cable design
- Some of the industry's largest kits (240 sq. ft. in 240V; 120 sq. ft. in 120V)
- Available in 120V and 240V
- Thin cold-lead and connection joint
- Completely redesigned, easy-to-use cable guides
- Heats shower floors, shower benches and steamrooms
- Halfway marker on heating cable
- Industry leading 25-year warranty

FAQs

- Q: CAN NUHEAT REPLACE MY ELECTRIC BASEBOARD HEATERS?**
A: Yes, Nuheat produces 12 watts/sq. ft. for a heat output of 41 BTUs/sq. ft.— easily heating most rooms.
- Q: CAN I USE NUHEAT TO REPLACE MY HOT-WATER RADIATOR?**
A: Yes, Nuheat is a viable alternative to water radiators. Invisible and maintenance-free, Nuheat is a perfect heating option for renovations or additions.
- Q: WILL NUHEAT HEAT THE WHOLE ROOM OR JUST THE FLOOR?**
A: The whole room! Nuheat transforms the entire floor area into the room's heat source—guaranteeing even, consistent heat.

HEAT COVERAGE COMPARISON

OPERATING COST EXAMPLE

	ft ²	⌚	\$*
Bathroom	50	5.5 hrs	14¢
Kitchen	150	7.5 hrs	59¢
Living Room	200	7.5 hrs	78¢

* Average winter operating cost. Based on US Energy Information Administration 2012 national average of \$0.12 /kWh and modern insulation standards.

INSTALLATION

A professional tile setter installs Nuheat Cable onto the subfloor. A certified electrician connects the system to your household wiring.

THERMOSTATS

SOLO
Universal Floor Heating Thermostat

- For tile, stone and laminate / engineered wood floors
- Full menu screen allows easy 7-day programming
- Dual voltage (120V & 240V)

HARMONY
Designer Inspired Thermostat

- Flush mounts behind any double-gang wall plate
- For tile, stone and laminate / engineered wood floors
- 7-day programmability
- Dual voltage (120V & 240V)

TEMPO
Non-Programmable Control

- Manual temperature control
- Dual voltage (120V & 240V)

All thermostats come with manufacturer's limited (3) three-year warranty and built-in GFCI protection

Other Nuheat
Floor Heating Solutions

PRE-BUILT LIKE AN ELECTRIC BLANKET, NUHEAT MAT IS AN ELECTRIC FLOOR HEATING SYSTEM THAT BRINGS SOOTHING HEAT TO TILE, STONE, LAMINATE AND ENGINEERED WOOD FLOORS.

A cost-effective heating solution, Nuheat Mat is inexpensive to install and does not require ductwork or plumbing as with other heating systems.

Whether using Nuheat Custom Mats or Nuheat Standard Mats, Nuheat offers an entirely maintenance-free heating alternative —with no cold spots.
