The Eaton difference

C
SECTION

- Mid-size screwless wallplates deliver the ultimate in designer looks with a screwless finish; they are fast and easy to install, virtually unbreakable and easy to clean
- Mid-size & oversize wallplates are designed for use in applications where additional wall coverage is needed
- Extra depth wallplates are available for use with old work outlet boxes for a flush fit to the wall
- Available wallplate materials include virtually unbreakable nylon & polycarbonate thermoplastics, 302/304 corrosion resistant stainless steel, brass, and thermoset
- Nylon & polycarbonate wallplates feature screw-catch, a timesaving feature that holds mounting screws captive to simplify installation
- Our wallplates are manufactured according to the performance & dimensional requirements of Federal Specification WP-455, NEMA Standard WD-1, UL Standard 514 and the NEC®
Specific wallplate solutions for today's needs

Aesthetic upgrade

Our screwless wallplates come in 3 different openings for upgrading the look of toggle switches, GFCIs, rotary dimmers and duplex receptacles without having to change out devices!

See pages C-17 to C-19

Shown: PJS1

Corrosion resistance

Brass and stainless steel wallplates offer durable, elegant corrosion resistance making them ideal for high-moisture locations like kitchens, baths, garages and basements.

See pages C-10 to C-25
Shown: 93101

Impact resistance

Thermoplastic polycarbonate and nylon wallplates are virtually unbreakable, warp resistant, abrasion resistant and soil resistant, making them ideal for high-traffic areas.

See pages C-10 to C-26

Shown: PJ26

Thermoplastic nylon or polycarbonate wallplates

Design features

- Rugged construction reduces installation cost due to less plate breakage and resists bowing to provide a smooth, flat installation

- Exclusive timesaving Screw-catch feature holds mounting screws captive and simplifies installation

- High gloss finish is soil resistant

- Polycarbonate wallplates are virtually unbreakable with high structural rigidity, long-term form retention, plus superior impact and abrasion resistance

- Nylon wallplates have a flush-fitting, warp resistant design

- Matching mounting screws provide

Testing & code compliance

- cULus listed to UL514C, file no. E33216, certified to CSA C22.2, no. 42.1

Material characteristics

- Flammability: meets UL94 requirements; 5V rated

- Temperature rating: -40°C to 70°C (-40°F to 158°F)

Thermoset wallplates

Design features

- Extensive line of non-flammable thermoset plates provides flush-fitting, warp resistant performance

Testing & code compliance

- cULus listed to UL514C, file no. E33216, certified to CSA C22.2, no. 42.1

Material characteristics

- Flammability: Meets UL94 requirements; 5V rated

- Temperature rating: -40°C to 65°C (-40°F to 149°F)

302/304 Stainless steel wallplates

Design features

- Superior non-corrosive and non-magnetic properties for applications needing protection from those elements

- Stainless steel alloy contains 18% chromium and 8% nickel for corrosion resistance

- Stamped from 0.032" (0.81mm) thick material

- Horizontally satin-brushed surface finish resists finger prints

- All plates are coated with clear, removable PVC to safeguard the surface during handling and installation

- Matching stainless steel mounting screws provided

Testing & code compliance

- Listed to UL514D, file no. E92122, certified to CSA C22.2, no.42.1

Material characteristics

- Temperature rating: -40°C to 70°C (-40°F to 158°F)

Brass wallplates

Design features

- Line of handsomely crafted, elegant solid brass designs in 11 popular NEMA standard size configurations

- Strong, corrosion resistant and coated with transparent lacquer to resist premature oxidation

- Horizontally satin-brushed surface finish resists fingerprints

- Matching brass-plated steel screws resist damage during installation

- All plates are coated with clear, removable PVC to safeguard the surface during handling and installation

- Solid brass material is a 70/30 alloy (#26C), .040" (1.02mm) thick
Testing & code compliance

- Listed to UL514D, file no. E92003

Material characteristics

- Temperature rating: -40°C to 70°C (-40°F to 158°F)
