

Stud Ball - Magnetic Stud Finder

Part# 52300

The Stud Ball is a protected magnetic stud finder that will out perform and other type of magnetic stud finder on the market. Unlike other steel stud finders, the Stud Ball can detect metal through 1/2" or 5/8" drywall or other thicker building materials. Will also work through ceramic tiling and up to 3/4" plywood paneling.

Features

- 27 pounds of magnetic pull
- No batteries required

Mfg Note

Will find 40 or more steel studs on a wall with 5/8" drywall in less than a minute.
