

Data sheet

US2:HF362JCHW

Siemens Low Voltage Circuit Protection Heavy Duty Safety Switch. 3-Pole 3-Wire Fused in a type 12 industrial enclosure. Rated 600VAC (60A). Special features: Crouse-Hinds interlocked receptacle, viewing window.

General technical data

mechanical service life (operating cycles) typical	10000
fastening method	SURFACE
number of poles	3
suitability for operation	PROTECTION OF HEAVY DUTY PORTABLE EQUIPMENT

Electricity

ampacity	60 A
supply voltage frequency rated value 50/60 Hz	Yes

Environmental conditions

ambient temperature during operation maximum	85 °C
ambient temperature during operation minimum	-29 °C

Model

product brand name	SIEMENS
product sub brand name	VBII
product type designation	HEAVY DUTY SWITCH
special product feature	ACCEPTS CROUSE-HINDS Arktite PLUGS VIEWING WINDOW
type of electrical connection	INTERLOCKED PLUG

Mechanical Design

design of the housing	TYPE 12
design of the actuating element	SINGLE THROW
material	STEEL

General product approval

certificate of suitability	UL98
