

FFI

FLOOR INSERT FAN HEATER

HEAT FROM AN UNEXPECTED PLACE

The FFI is the perfect solution when there's no wall space available, such as under low windows, bay windows and patio doors. It's also a great fit for offices, narrow entryways and bathrooms. It can be recessed between floor joists. Its grille is solidly constructed of rigid aluminum to withstand foot traffic. Installation at construction sites is easy thanks to its compact design. This floor insert fan heater can also be recessed into concrete floors.

- **DURABLE ALUMINUM GRILLE**
- **EASILY CONCEALED**
- **EASY INSTALLATION**
- **CAN BE RECESSSED INTO CONCRETE FLOORS**

COLOURS

- **standard:** white, soft white
- **Orora (optional):** refer to www.stelpro.com/en-CA/Orora

FINISH

- epoxy-polyester powdercoat

MANUFACTURING

- durable 16-gauge steel cabinet and 9-gauge aluminum extruded grille
- protective wire mesh to prevent foreign objects from entering the interior of the unit
- 80 CFM capacity fan
- thermal protection with automatic reset

ELEMENT

- tubular element sheathed with spiral-wound fins for improved heat dissipation

CONTROL

- wall thermostat only (not included) – the use of an electronic thermostat is strongly recommended

INSTALLATION

- recessed between floor joists
- in a concrete floor without framing
- large wiring compartment

WARRANTY

- five years

IDEAL FOR:

in front of a patio door, office, narrow entryway, bathroom
