

# TOUCH-UP & MARKING PAINTS

## TOUCH-UP PAINT

Our quick-drying enamel paints feature a tough, durable finish, and can be used for touching up electrical panels and equipment.

- Provides a tough finish that is durable and inhibits rust
- Excellent adhesion for indoor and outdoor applications
- Dries fast and resists chipping and peeling
- Grey paint is colour-matched to Standard ANSI-61 Medium Grey, specifically for touching-up panels

DESCRIPTION	PART #
Red Electrical Finish	40-026
White Electrical Finish	40-027
ANSI-61 Grey Electrical Finish	40-028
Blue Electrical Finish	40-029
Yellow Electrical Finish	40-030

## MARKING PAINT

Ultra high visibility, fluorescent orange marking paint. Provides exceptional outdoor durability.

- For vivid marking lines, with exceptional durability for use both indoors or outdoors
- 400% greater visibility than regular paint
- Meets APWA colour standards

## INVERTED MARKING PAINT

Our Inverted Marking Paint is designed to be sprayed upside-down. It does not clog, and is safe for use on grass.

- Coverage of up to 500 linear feet
- VOC compliant
- Spray by hand, or with a marking gun/wand

DESCRIPTION	PART #
Fluorescent Orange (Inverted Spray)	40-031
