JSBT Surface Mount Disk Lights

Designed to be the lowest total installed cost solution for residential spaces

SlimBasics™ JSBT Tapered LED Disk Light Series come in 4" and 6" sizes and provide even illumination where you need it most. The matte white aluminum housing is aesthetically pleasing bringing a design element that easily blends with any décor. The family consists of an economical, static solution, a flexible solution with switchable white technology, a convenient solution which offers both switchable white technology and motion sensing, and compatible solution that offer smart home technology. This diverse platform gives you an option for every room of a home. Perfect for use in kitchens, closets, hallways, bathrooms and laundry rooms in both single and multi-family homes, as well as in light commercial spaces such as self storage facilities.

Create a Consistent Look Across the Entire Home

*Applications noted with  are perfect for the JSBT Switchable with PIR Sensor Solution.

Fast & Easy Installation

The Juno® SlimBasics™ JSBT pairs perfectly with an industry standard JBOX for new construction or retrofit over an existing box to upgrade the look of the space. It's wet location listing makes it great for bathrooms, patios, entryways and porches(non-sensor versions only).
