SIEMENS

Data sheet

6GK7242-7KX31-0XE0

product type designation

CP 1242-7 V2

- - spare part - - communications processor CP 1242-7 V2 for connection of SIMATIC S7-1200 to GSM/GPRS network; web server access to CPU, data point configuration, observe national approvals.

transfer rate	
transfer rate	
 for GPRS transmission 	
— with downlink / maximum	86 kbit/s
— with uplink / maximum	43 kbit/s
interfaces	
number of interfaces / according to Industrial Ethernet	0
number of electrical connections	
for external antenna(s)	1
• for power supply	1
number of slots	
• for SIM cards	1
type of electrical connection	
for external antenna(s)	SMA socket (50 ohms)
• for power supply	3-pole terminal block
slot version	
• for SIM card	Standard
wireless technology	
type of mobile wireless service / is supported	
• SMS	Yes
• GPRS	Yes
•	GPRS (Multislot Class 10)
type of wireless network / is supported	
• GSM	Yes
• UMTS	No
• LTE	No
operating frequency	
• 850 MHz	Yes
• 900 MHz	Yes
• 1800 MHz	Yes
• 1900 MHz	Yes
transmit power	
 at operating frequency 900 MHz 	2 W
 at operating frequency 1800 MHz 	1 W
 at operating frequency 1900 MHz 	1 W
supply voltage, current consumption, power loss	
type of voltage / of the supply voltage	DC
supply voltage / external	24 V
supply voltage / external / at DC / rated value	24 V

relative positive tolerance / at DC / at 24 V	20 %
relative negative tolerance / at DC / at 24 V	20 %
consumed current	
• from external supply voltage / at DC / at 24 V / typical	0.1 A
• from external supply voltage / at DC / at 24 V / maximum	0.22 A
power loss [W]	2.4 W
ambient conditions	
ambient temperature	
for vertical installation / during operation	-20 +60 °C
for horizontally arranged busbars / during operation	-20 +70 °C
during storage	-40 +70 °C
during storage during transport	-40 +70 °C
relative humidity	40 170 0
at 25 °C / without condensation / during operation / maximum	95 %
protection class IP	IP20
design, dimensions and weights	
module format	Compact module S7-1200 single width
width	30 mm
	100 mm
height	75 mm
depth	
net weight	0.133 kg
fastening method	Voc
35 mm DIN-rail mounting S7 200 rail mounting	Yes
• S7-300 rail mounting	No
wall mounting	Yes
product features, product functions, product components / gen	erai
number of units	
per CPU / maximum	3
performance data	
number of users/telephone numbers / definable / maximum	10
performance data / open communication	
number of possible connections / for open communication	
by means of T blocks / maximum	like CPU
performance data / IT functions	
number of possible connections	
as email client / maximum	1
performance data / telecontrol	
control center connection	Telecontrol Server Basic
control center connection • by means of a permanent connection	Telecontrol Server Basic supported
• by means of a permanent connection	supported
by means of a permanent connectionby means of demand-oriented connection	supported supported
by means of a permanent connectionby means of demand-oriented connectionnote	supported supported
 by means of a permanent connection by means of demand-oriented connection note protocol / is supported	supported supported Connection to SCADA system using OPC interface
 by means of a permanent connection by means of demand-oriented connection note protocol / is supported DNP3 	supported supported Connection to SCADA system using OPC interface No
 by means of a permanent connection by means of demand-oriented connection note protocol / is supported DNP3 IEC 60870-5 	supported supported Connection to SCADA system using OPC interface No No
by means of a permanent connection by means of demand-oriented connection note protocol / is supported DNP3 IEC 60870-5 product function / data buffering if connection is aborted number of stations / for direct communication / with Telecontrol	supported supported Connection to SCADA system using OPC interface No No
by means of a permanent connection by means of demand-oriented connection note protocol / is supported DNP3 IEC 60870-5 product function / data buffering if connection is aborted number of stations / for direct communication / with Telecontrol Server Basic	supported supported Connection to SCADA system using OPC interface No No Yes; 64,000 events
by means of a permanent connection by means of demand-oriented connection note protocol / is supported DNP3 IEC 60870-5 product function / data buffering if connection is aborted number of stations / for direct communication / with Telecontrol Server Basic in send direction / maximum	supported supported Connection to SCADA system using OPC interface No No Yes; 64,000 events
by means of a permanent connection by means of demand-oriented connection note protocol / is supported DNP3 IEC 60870-5 product function / data buffering if connection is aborted number of stations / for direct communication / with Telecontrol Server Basic in send direction / maximum in receive direction / maximum	supported supported Connection to SCADA system using OPC interface No No Yes; 64,000 events
by means of a permanent connection by means of demand-oriented connection note protocol / is supported DNP3 IEC 60870-5 product function / data buffering if connection is aborted number of stations / for direct communication / with Telecontrol Server Basic in send direction / maximum in receive direction / maximum performance data / teleservice	supported supported Connection to SCADA system using OPC interface No No Yes; 64,000 events
by means of a permanent connection by means of demand-oriented connection note protocol / is supported DNP3 IEC 60870-5 product function / data buffering if connection is aborted number of stations / for direct communication / with Telecontrol Server Basic in send direction / maximum in receive direction / maximum performance data / teleservice diagnostics function / online diagnostics with SIMATIC STEP 7 product function	supported supported Connection to SCADA system using OPC interface No No Yes; 64,000 events
by means of a permanent connection by means of demand-oriented connection note protocol / is supported DNP3 IEC 60870-5 product function / data buffering if connection is aborted number of stations / for direct communication / with Telecontrol Server Basic in send direction / maximum in receive direction / maximum performance data / teleservice diagnostics function / online diagnostics with SIMATIC STEP 7 product function program download with SIMATIC STEP 7	supported connection to SCADA system using OPC interface No No Yes; 64,000 events Yes
by means of a permanent connection by means of demand-oriented connection note protocol / is supported DNP3 IEC 60870-5 product function / data buffering if connection is aborted number of stations / for direct communication / with Telecontrol Server Basic in send direction / maximum in receive direction / maximum performance data / teleservice diagnostics function / online diagnostics with SIMATIC STEP 7 product function program download with SIMATIC STEP 7 remote firmware update	supported supported Connection to SCADA system using OPC interface No No Yes; 64,000 events Yes Yes
by means of a permanent connection by means of demand-oriented connection note protocol / is supported DNP3 IEC 60870-5 product function / data buffering if connection is aborted number of stations / for direct communication / with Telecontrol Server Basic in send direction / maximum in receive direction / maximum performance data / teleservice diagnostics function / online diagnostics with SIMATIC STEP 7 product function program download with SIMATIC STEP 7 remote firmware update product functions / management, configuration, engineering	supported supported Connection to SCADA system using OPC interface No No Yes; 64,000 events Yes Yes
by means of a permanent connection by means of demand-oriented connection note protocol / is supported DNP3 IEC 60870-5 product function / data buffering if connection is aborted number of stations / for direct communication / with Telecontrol Server Basic in send direction / maximum in receive direction / maximum performance data / teleservice diagnostics function / online diagnostics with SIMATIC STEP 7 product function program download with SIMATIC STEP 7 remote firmware update product functions / management, configuration, engineering configuration software	supported supported Connection to SCADA system using OPC interface No No Yes; 64,000 events Yes Yes Yes Yes
by means of a permanent connection by means of demand-oriented connection note protocol / is supported DNP3 IEC 60870-5 product function / data buffering if connection is aborted number of stations / for direct communication / with Telecontrol Server Basic in send direction / maximum in receive direction / maximum performance data / teleservice diagnostics function / online diagnostics with SIMATIC STEP 7 product function program download with SIMATIC STEP 7 remote firmware update product functions / management, configuration, engineering configuration software required	supported supported Connection to SCADA system using OPC interface No No Yes; 64,000 events Yes Yes
by means of a permanent connection by means of demand-oriented connection note protocol / is supported DNP3 IEC 60870-5 product function / data buffering if connection is aborted number of stations / for direct communication / with Telecontrol Server Basic in send direction / maximum in receive direction / maximum performance data / teleservice diagnostics function / online diagnostics with SIMATIC STEP 7 product function program download with SIMATIC STEP 7 remote firmware update product functions / management, configuration, engineering configuration software required product functions / diagnostics	supported supported Connection to SCADA system using OPC interface No No Yes; 64,000 events Yes Yes Yes Yes Yes Yes
by means of a permanent connection by means of demand-oriented connection note protocol / is supported DNP3 IEC 60870-5 product function / data buffering if connection is aborted number of stations / for direct communication / with Telecontrol Server Basic in send direction / maximum in receive direction / maximum performance data / teleservice diagnostics function / online diagnostics with SIMATIC STEP 7 product function program download with SIMATIC STEP 7 remote firmware update product functions / management, configuration, engineering configuration software required	supported supported Connection to SCADA system using OPC interface No No Yes; 64,000 events Yes Yes Yes Yes

product function	
 password protection for teleservice access 	Yes
 encrypted data transmission 	Yes
product functions / time	
protocol / is supported	
• NTP	Yes
time synchronization	
• from control center	Yes

security information	
security information	Siemens provides products and solutions with industrial cybersecurity functions that support the secure operation of plants, systems, machines and networks. In order to protect plants, systems, machines and networks against cyber threats, it is necessary to implement – and continuously maintain – a holistic, state-of-the-art industrial cybersecurity concept. Siemens' products and solutions constitute one element of such a concept. Customers are responsible for preventing unauthorized access to their plants, systems, machines and networks. Such systems, machines and components should only be connected to an enterprise network or the internet if and to the extent such a connection is necessary and only when appropriate security measures (e.g. firewalls and/or network segmentation) are in place. For additional information on industrial cybersecurity measures that may be implemented, please visit www.siemens.com/cybersecurity-industry. Siemens' products and solutions undergo continuous development to make them more secure. Siemens strongly recommends that product updates are applied as soon as they are available and that the latest product versions are used. Use of product versions that are no longer supported, and failure to apply the latest updates may increase customer's exposure to cyber threats. To stay informed about product updates, subscribe to the Siemens Industrial Cybersecurity RSS Feed under https://www.siemens.com/cert. (V4.7)

Approvals / Certificates

General Product Approval

For use in hazardous locations

For use in hazardous locations

Radio Equipment Type Approval Certificate

Marine / Shipping

Environment

CCC-Ex
