

# Solenoid coil MSG-24-OD

Part number: 34401

FESTO

## Data sheet

| Feature                          | Value                               |
|----------------------------------|-------------------------------------|
| Type of actuation                | Electric                            |
| Mounting position                | optional                            |
| Min. pick-up time                | 10 ms                               |
| Duty cycle                       | 100%                                |
| Insulation material class        | F                                   |
| Characteristic coil data         | 24 V DC: 11.5 W                     |
| Permissible voltage fluctuations | +/- 10 %                            |
| LABS (PWIS) conformity           | VDMA24364-C1-L                      |
| Storage temperature              | -10 °C...60 °C                      |
| Degree of protection             | IP65                                |
| Ambient temperature              | -5 °C...50 °C                       |
| Product weight                   | 150 g                               |
| Electrical connection            | Type A<br>Plugs<br>To EN 175301-803 |
| Type of mounting                 | External hex 1/8<br>Retaining clip  |
| Note on materials                | RoHS-compliant                      |
| Material solenoid coil           | Duroplast                           |
| Material electrical contact      | Brass, tin-plated                   |
| Material winding                 | Copper                              |
