2131H Slow-action switching contact 3 NC \rightarrow + 1 NO

Functional drawings

Dimensional drawings

1 Do not use as an end stop. Limit overtravel separately.

2 Actuating direction can be changed

3 Standard

4 Built-in connector: MENCOR (8-pin) MIN-8MR2-1-18

5 View Z built-in connector aligned

6 The alignment is different for every plug connector (thread). See housing cpl.

a Travel without operation: actuator is in the guide slot, but function is not triggered.

b Switching operation completed: actuator must be inserted to this point to ensure safe switching. The actuator must be withdrawn at least to point a for switching off.
