Switching elements

2220 2 NO/NC

Cable

The high-quality connecting cables (individual screening of the safety contacts) are available in a straight version.

Suitable for direct connection to safety switch

This enabling switch can be connected directly to a safety switch (TZ...C1662) (see catalog for safety switches with metal housing).

3-stage function

Enabling function is active only in the second stage (center position, actuating point). If the pushbutton is released or pushed further (panic function), the enabling is removed (dependent on the wiring, see function sequence).
