MCM−MLI−YE6E6A4A4−PA−163584 (Order no. 163584)

Expansion module MCM−MLI… (2 white signal indicators, 2 key−operated rotary switches)

▸ Function expansion for bus module MBM and locking module MGB2−L.−MLI

▸ Four slots for mounting submodules

▸ Category 4/PL e for the evaluation of all safety functions

▸ 2 white signal indicators, 2 key−operated rotary switches

▸ 2 blanking covers

▸ Submodule connection type: N/P

▸ Compatible with all Modular devices

Function

The MCM Modular can be connected directly or remotely to the bus module and in this way can be operated as a control terminal. It can also be used to extend the control features on a locking module. The MCM Modular offers four slots for mounting submodules.

Expandable via connection on the top

Either a module plug connector or a plug for the direct connection of a signal light with up to four lamps can be used on the top of the MCM.
