

## MBM-PN-S4-MLI-3B-156312 (Order no. 156312)

### Bus module MBM-PN... (M12 connection, D-coded, Power 7/8")

- ▶ This item has been replaced by a new version and should not be used for new projects. We recommend the use of the new version MBM-PN-S4-MLI-3B-169765.
- ▶ For connecting MGB2 or MCM modules
- ▶ Connection to PROFINET with PROFI-safe
- ▶ Connection via plug connector M12, D-coded
- ▶ Remote or direct mounting
- ▶ Integrated switch
- ▶ Compatible with all Modular devices

### PROFINET connection

Plug connector M12 D-coded (7/8" plug and M12 plug, D-coded) according to IEC 61076-2-101

### PROFINET switch

Linear topology network structure due to integrated switch (supports MRP).

### MLI connections (module plug connector)

An MGB2 Modular or an MCM Modular can be connected directly to a bus module (direct plug).

Alternatively, the modules can be connected using commercially available connecting cables M12, 5-pin (cable connect).
