

## MGB-H-AA1B2-L-116814 (Order no. 116814)

### Handle module MGB-H... with automatically extending lockout mechanism

- ▶ Intelligent bolt tongue
- ▶ Fold-out lockout mechanism
- ▶ Second automatically extending lockout mechanism
- ▶ Door handle
- ▶ It can be locked using escape release

#### It can be locked using escape release

The guard can be opened and closed again using the escape release from the danger area. On closing from the danger area, the safety outputs are switched on.

**Important:** Actuating direction is not adjustable.

#### Bolt tongue

The bolt tongue is safely detected by a transponder as soon as it is inserted into the evaluation module.

#### Lockout mechanism (automatically extending and fold-out)

The bolt tongue can be blocked for cleaning and service with max. 3 locks.

The lockout mechanism extends automatically on the actuation of the handle and prevents the operation of the handle in the safe state. In addition, the fold-out lockout mechanism can be used.

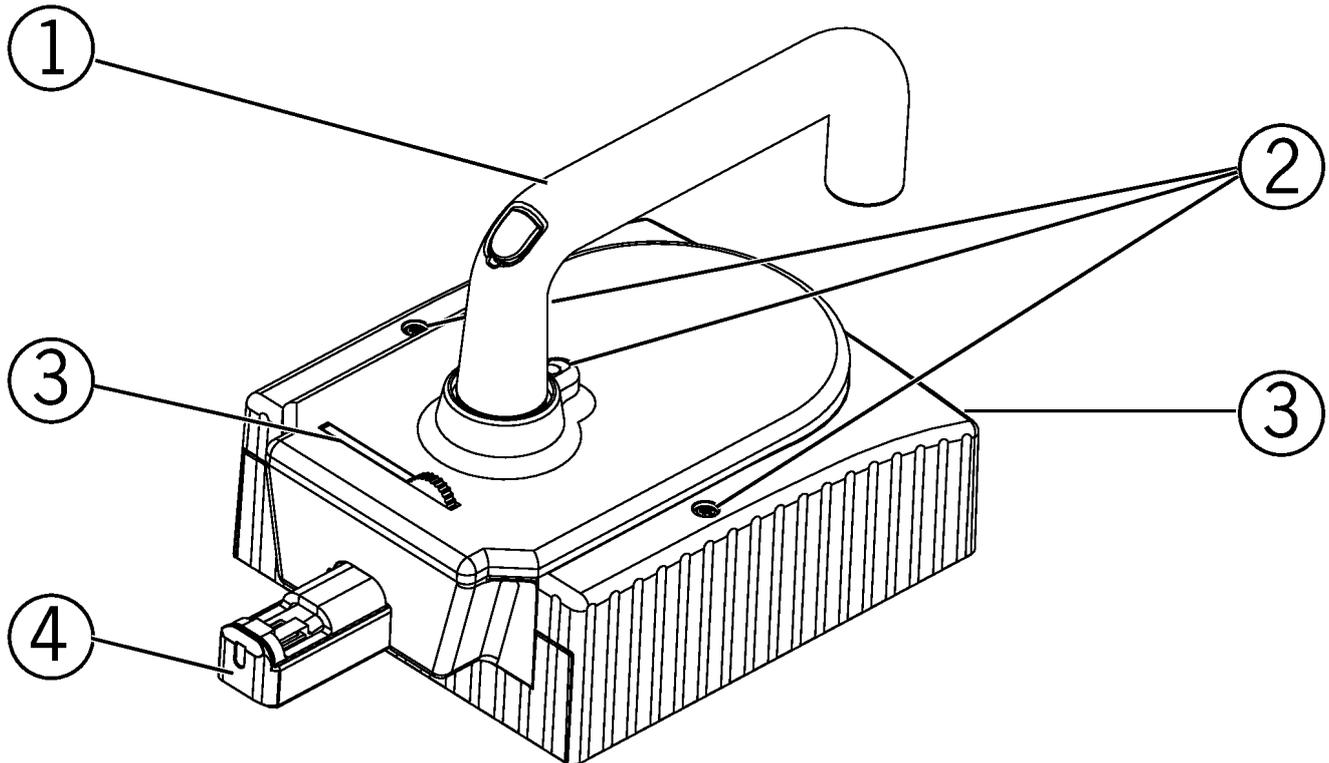

#### Door handle

The MGB has a robust door handle that can be rotated in 90° steps to suit all installations.

#### Door knob

As an alternative to the door handle, the handle module can also be equipped with a door knob.

## Dimensional drawings

- 1 Door handle
- 2 Locking pins for housing cover and handle adjustment
- 3 Lockout mechanism
- 4 Bolt tongue
