

## **RADIUSBETAETIGER-Z-U (Order no. 048850)**

### **Hinged actuator, bottom, for safety switches NZ.VZ, NZ.VZ.VS and TZ**

- ▶ Two stainless-steel safety screws per actuator

### **Hinged actuators**

For door radii less than 1000 mm a hinged actuator should be used. The spring action movement of the actuator prevents damage due to the actuator jamming in the actuator head. Depending on the movement of the guard, the actuator must be selected for left/right or top/bottom.

### **Screws made of stainless steel**

The safety screws included can be inserted with a normal tool, but cannot be removed again.

## Dimensional drawings

## Technical data

### Approvals

### Mechanical values and environment

Storage temperature	-25 ... 70 °C
---------------------	---------------

Overtravel	max. 4 mm
------------	-----------

Door radius	min. 165 mm
-------------	-------------

Material

Screw	Stainless steel
Sheath	Plastic
Actuator	Galvanized steel

### Miscellaneous

Usability of insertion funnel	No
-------------------------------	----
