

## **AE-K-A1-DULK1-84177 (Order no. 084177)**

### **Lock for auxiliary release for safety switch CTP/CTA/TP/STP**

- ▶ Lock unique locking
- ▶ Key removable in “unlocked” and “locked” positions

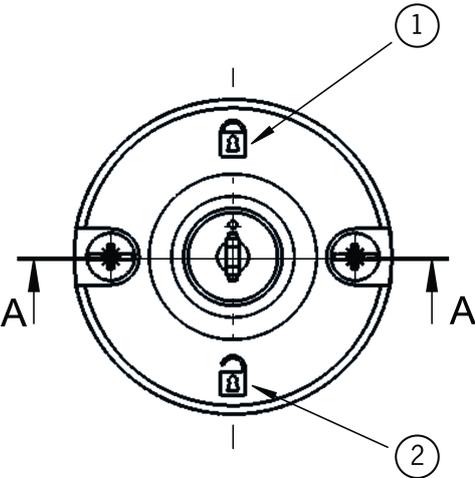

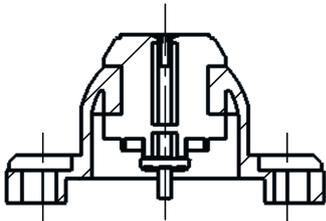

The lock is used in combination with safety switch CTP/TP/STP. The auxiliary key release enables authorized personnel to actuate the auxiliary release using the related key. The unlocking mechanism holds the solenoid in the “unlocked” position. 2 screws are used to fix the lock to the cover of the safety switch (above the auxiliary release).

- ▶ Order safety switch CTP/TP/STP separately
- ▶ 2 keys are included
- ▶ Every safety switch of the series CTP/TP/ STP can be upgraded to include a lock.
