

## ZSM2204-117128 (Order no. 117128)

**ZSM, LED, + and – buttons, vibration motor, stop command device, black pushbutton, straight connecting cable, 10 m**

- ▶ 3-stage function
- ▶ Stop command device
- ▶ Vibration signal optional
- ▶ LED indicator
- ▶ Pushbutton black
- ▶ + and – buttons
- ▶ Straight connecting cable, 10 m

### **3-stage function**

Enabling function is active only in the second stage (center position, actuating point). If the pushbutton is released or pushed further (panic function), the enabling is removed (dependent on the wiring, see function sequence).

### **Stop command device**

Dual-channel emergency stop device (red, with pull-to-reset and turn-to-reset button) on the switch housing, for different wiring concepts.

Lower position, protected by anti-kink strain relief in case of a fall.

### **Vibration signal**

The vibration signal is used for tactile feedback of the enabling position.

### **LED indicator**

The LED indicator is used for visual feedback directly at the enabling switch.

### **Pushbutton black**

This button can be configured individually. For example for reset function directly from the enabling switch.

### **+ and – buttons**

These pushbuttons can be configured individually. For example, for moving axes in the positive or negative direction.

## Cable

The high-quality connecting cables are available in a straight version.
