

CEM-M2-C60-KZ-SE-163252 (Order no. 163252)

Variable magnetic guard locking device CEM-C60 without permanent magnet, plug connector on left

- ▶ Magnetic guard locking for process protection
- ▶ Locking force 650 N (without permanent magnet)
- ▶ With remanence
- ▶ Function expansion for safety switch CES-C04 / CES-C07
- ▶ Flexibility through a large selection of safety switches
- ▶ Maximum safety level PL e / category 4 for detection of the door position in combination with CES-C04 / CES-C07
- ▶ Transponder coding enables high level of protection against tampering
- ▶ Simple connection of the solenoid using M12 plug connector, 5-pin
- ▶ Yellow LED to indicate voltage at the solenoid
- ▶ Nickel-plated solenoid surface with high corrosion resistance

Approach direction

Horizontal

Guard locking type

CEM-M2 Guard locking actuated by energy ON and released by energy OFF.

Combinations

Guard locking solenoid	Safety switch	Actuator	Application
