

ANWPG ELECTRONIC KEY MANAGER LIGHT (Order no. 111410)

Electronic Key Manager EKM Light version

- ▶ Software for setting key parameters
- ▶ Only local EKM client, no network support
- ▶ No access to key database and no key database export/import

Product description

Electronic-Key-Manager EKM is a software package for writing and managing the Electronic-Keys on the PC. All Electronic-Keys and their contents are managed in a central database. The freely programmable memory on the Electronic-Key can be allocated to the specific database fields. The database fields and the input mask can be configured as required. Write and read rights can be granted through user management. EKM can also be integrated into an existing EKS environment.
