# EINBAULEUCHTE LED−F M20X1,5 (Order no. 095510)

Built−in LED, light shines to front

The built−in LED is suitable for direct installation in one of the M20 x 1.5 threads of the three cable entries of rope pull switch RPS and safety switches GP/TP/STP/STA. The built−in LED indicates to the operator whether the switch is actuated or not. The switching element can be wired individually. Operating voltage DC 24 V +10%, −15%.
