# EUCHNER

CES-I-AS2A-U-C04-SC-120547 (Order no. 120547)

Safety switch CES-.-AS-C04 with AS-i connection, plug connector M8

- ‣ Very compact design with 3 active faces
- ‣ Integrated diagnostic LEDs
- ‣ Category 4 / PL e according to EN ISO 13849-1
- ‣ Plug connector M8, 3-pin
- ‣ Unicode

Installation position

A   B   C   D

Permissible installation position

Unicode evaluation

Each actuator is highly coded (unicode). The switch detects only taught-in actuators. Additional actuators can be taught-in. Only the last actuator taught-in is detected.

AS-Interface inputs

D0, D1, D2, D3 Door monitoring
Evaluation is performed via a safety monitor.

LED function display

- ‣ The STATE LED indicates the state of the switch.
- ‣ The DIA LED indicates whether a fault has been detected in the switch.
- ‣ The dual LED on the M8 plug connector indicates the state of the ASi bus.
